## A Great Tool at a Better Price.

Physicians who utilize the no-scalpel or no-needle techniques for vasectomy may enjoy a greater vasectomy market presence. Many are now the first in their area to offer these highly valuable services. Getting the word out is easy. A six page, customizable patient counseling and marketing brochure is now available from Advanced Meditech International, your complete vasectomy store.

This brochure is effectively written in the first person and in everyday language. It informs patients about no needle and no scalpel vasectomy techniques and features the benefits of the procedures and also answers frequently asked questions. Best of all it's at a new low price.

So now that you're performing the no needle or no scalpel vasectomy, let the men in your area know with our cost effective vasectomy patient education brochures. See a free sample on our website.
